

District of Columbia Clean Water Construction- State Revolving Fund (CWC-SRF) Project Site Summary

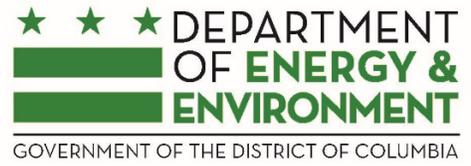

Fort Dupont Stream & Wetland Restoration		Grant Funding Year(s) FY2022 CWC, FY2022 & FY2023 Bipartisan Infrastructure Law (BIL), and FY2022 & FY2023 Overflow and Stormwater (OSG)		
		Lead Agency DOEE		
		Project Type Design/Construction		
Infrastructure Type Green	Project Category Stream/Outfalls Restoration	Address 3224 G Street SE	Status Design	
Design Start/End July 2021 – December 2023 (expected)		Construction Start/End* September 2024 – September 2025 (estimated)		
Objective Restore approximately 20,000 linear feet of stream bank in the Fort Dupont watershed, improve in-stream water quality and habitat conditions, and add up to five acres of tidal wetlands to the Anacostia River.				
Outputs <ul style="list-style-type: none"> • Restoration of 20,000 linear feet of streambank and associated habitats • Stabilization and revegetation of upland slopes and riparian forest • Improved water quality and habitat conditions • Reductions in nutrients and total suspended solids • Creation of approximately five acres of tidal wetland along the Anacostia River 				
Sewershed MS4	Watershed Anacostia River	Subwatershed Fort Dupont Tributary	Ward 7	
Outcomes				
Stormwater Treatment Volume	Contributing Drainage Area	Impervious Surface Removed	Trees Planted	Linear Stream Feet Restored
n/a	TBD ft ²	n/a	TBD	20,000'
